Leading Through Learning
Global Platform

Leading Through Learning Global Platform is

A global education learning system for USAID and partners to enhance thought leadership and education program quality.

This learning system includes three learning networks and three regional hubs

What are the learning networks and regional hubs?

Facilitated groups of peers who share knowledge to enhance thought leadership and education program quality.

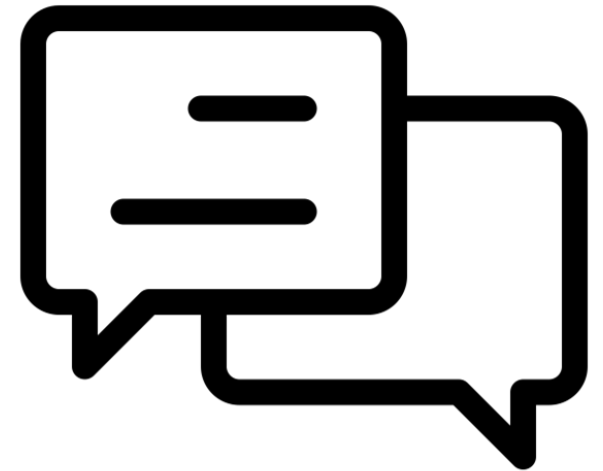

- Open, rolling enrollment
- Non-hierarchical
- Each can generate supply and/or demand of deliverables based on needs
- Each guided by a steering group
- Hubs serve to localize the Learning Networks

ECCN Then & Now

Shared objective:

A global community comprised of USAID staff, implementing partners, and others, all working together to increase equitable access to education for children and youth in crisis and conflict-affected environments.

What's new?

- Global learning system includes Higher Education Learning Network, Global Reading Network, and Regional Hubs

ECCN advances USAID Priority Areas for Education

1. Children and youth, particularly the **most marginalized and vulnerable**, have increased **access to quality education that is safe, relevant, and promotes social well-being**.
2. Children and youth **gain literacy, numeracy, and social-emotional skills** that are foundational to future learning and success.
3. Youth gain the skills they need **to lead productive lives, gain employment, and positively contribute to society**.
4. Higher education institutions have the capacity to be central actors in development by **conducting and applying research, delivering quality education, and engaging with communities**.
